Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

It wasn't bad enough that the phone system was de regulized increasing phone service fees. Now you want to raise prices again. Isn't it enough that we are paying now for both call we make and calls we receive. When are you going to stop taxing us. did you ever read about the Boston Tea Party? Please reply.
